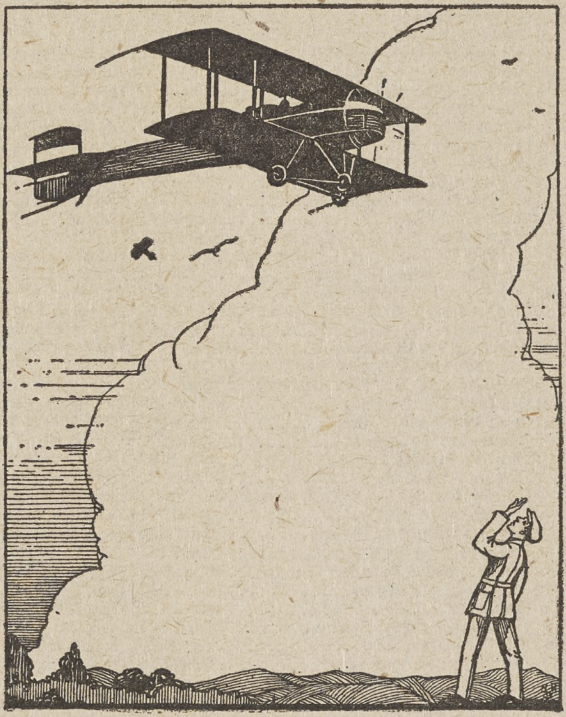
"That Letter Jones Promised

did not come today so I called him by Long Distance Telephone as the matter was so important. I found out immediately just what I wanted to know and the entire conversation only cost forty cents. I intend to use my telephone more in future as many times it does not pay to wait for a reply by mail."

EVERY BELL TELEPHONE IS A LONG DISTANCE STATION

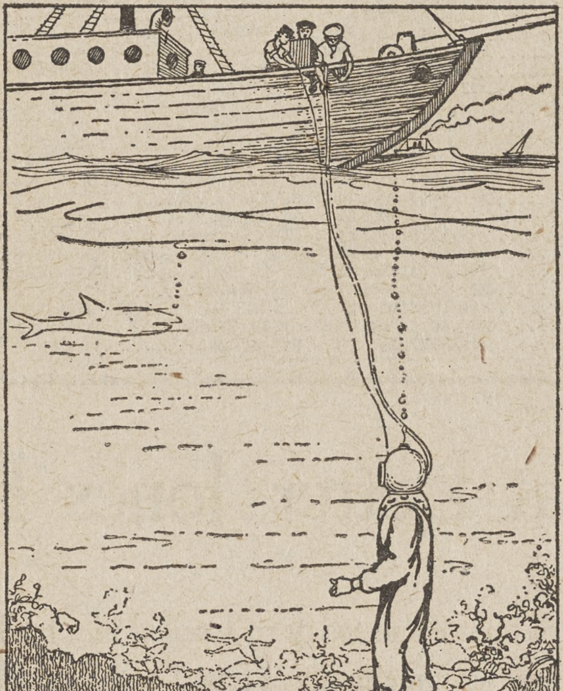


IF you want to go up in the air, the Classified Section of the Telephone Directory will tell you where you can buy an airplane.

SHOULD you wish to go down under the water, it will also tell you where you can get a diving outfit or hire a diver.

THESE are only two of over 1700 headings under which are listed the names of merchants dealing in almost every conceivable commodity or service.

When in doubt, it will pay you to consult the Classified Section.



In placing calls for towns listed in this directory, subscribers will greatly facilitate the call by giving to the Operator the telephone number of the party wanted.

Inconvenient Journeys

At times a journey is a necessity in order to complete the transaction of business, but have you ever thought of the inconvenient journeys you could save by the judicious use of your telephone?

In many cases you do not have to leave your office to visit your customer in another city.

Long Distance Telephone Talks are not expensive.

Consider Your Case

You are in business to make money.

If some one should show you how you could increase the volume of your business at small cost would you not get busy and try it out?

Our long distance lines are used daily by firms that are conducting successful selling campaigns.

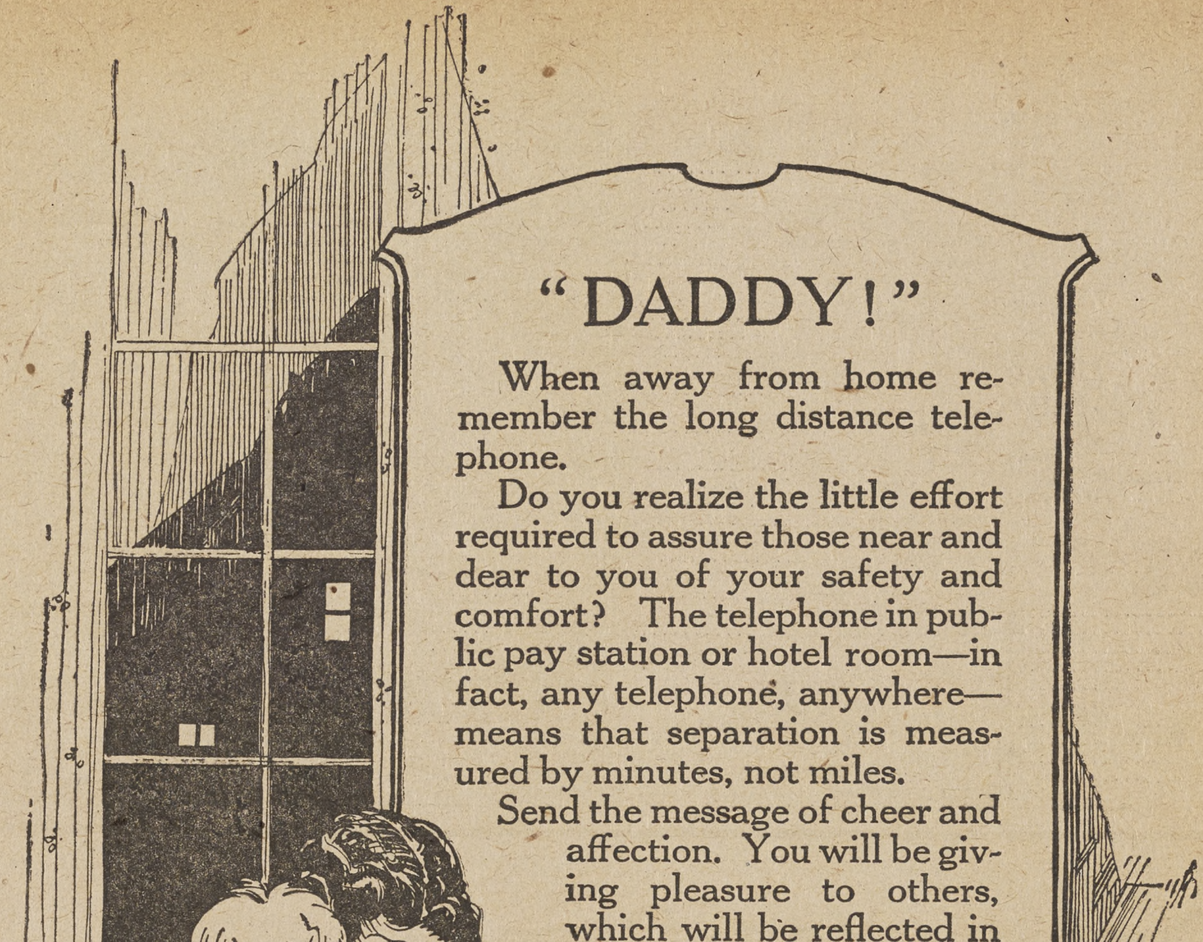
Did you ever try selling goods by telephone?

It might pay you to give this a thought and see if it would not work out in your case.

Why not arrange a selling campaign by Bell Telephone?

Let us help make your season a success.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY



"DADDY!"

When away from home remember the long distance telephone.

Do you realize the little effort required to assure those near and dear to you of your safety and comfort? The telephone in public pay station or hotel room—in fact, any telephone, anywhere—means that separation is measured by minutes, not miles.

Send the message of cheer and affection. You will be giving pleasure to others, which will be reflected in your own satisfaction.

Long distance telephone service is prompt, efficient and inexpensive.

Every Bell telephone is a Long Distance station.

The Pacific Telephone And Telegraph Company

Any One
Anywhere
Any Time

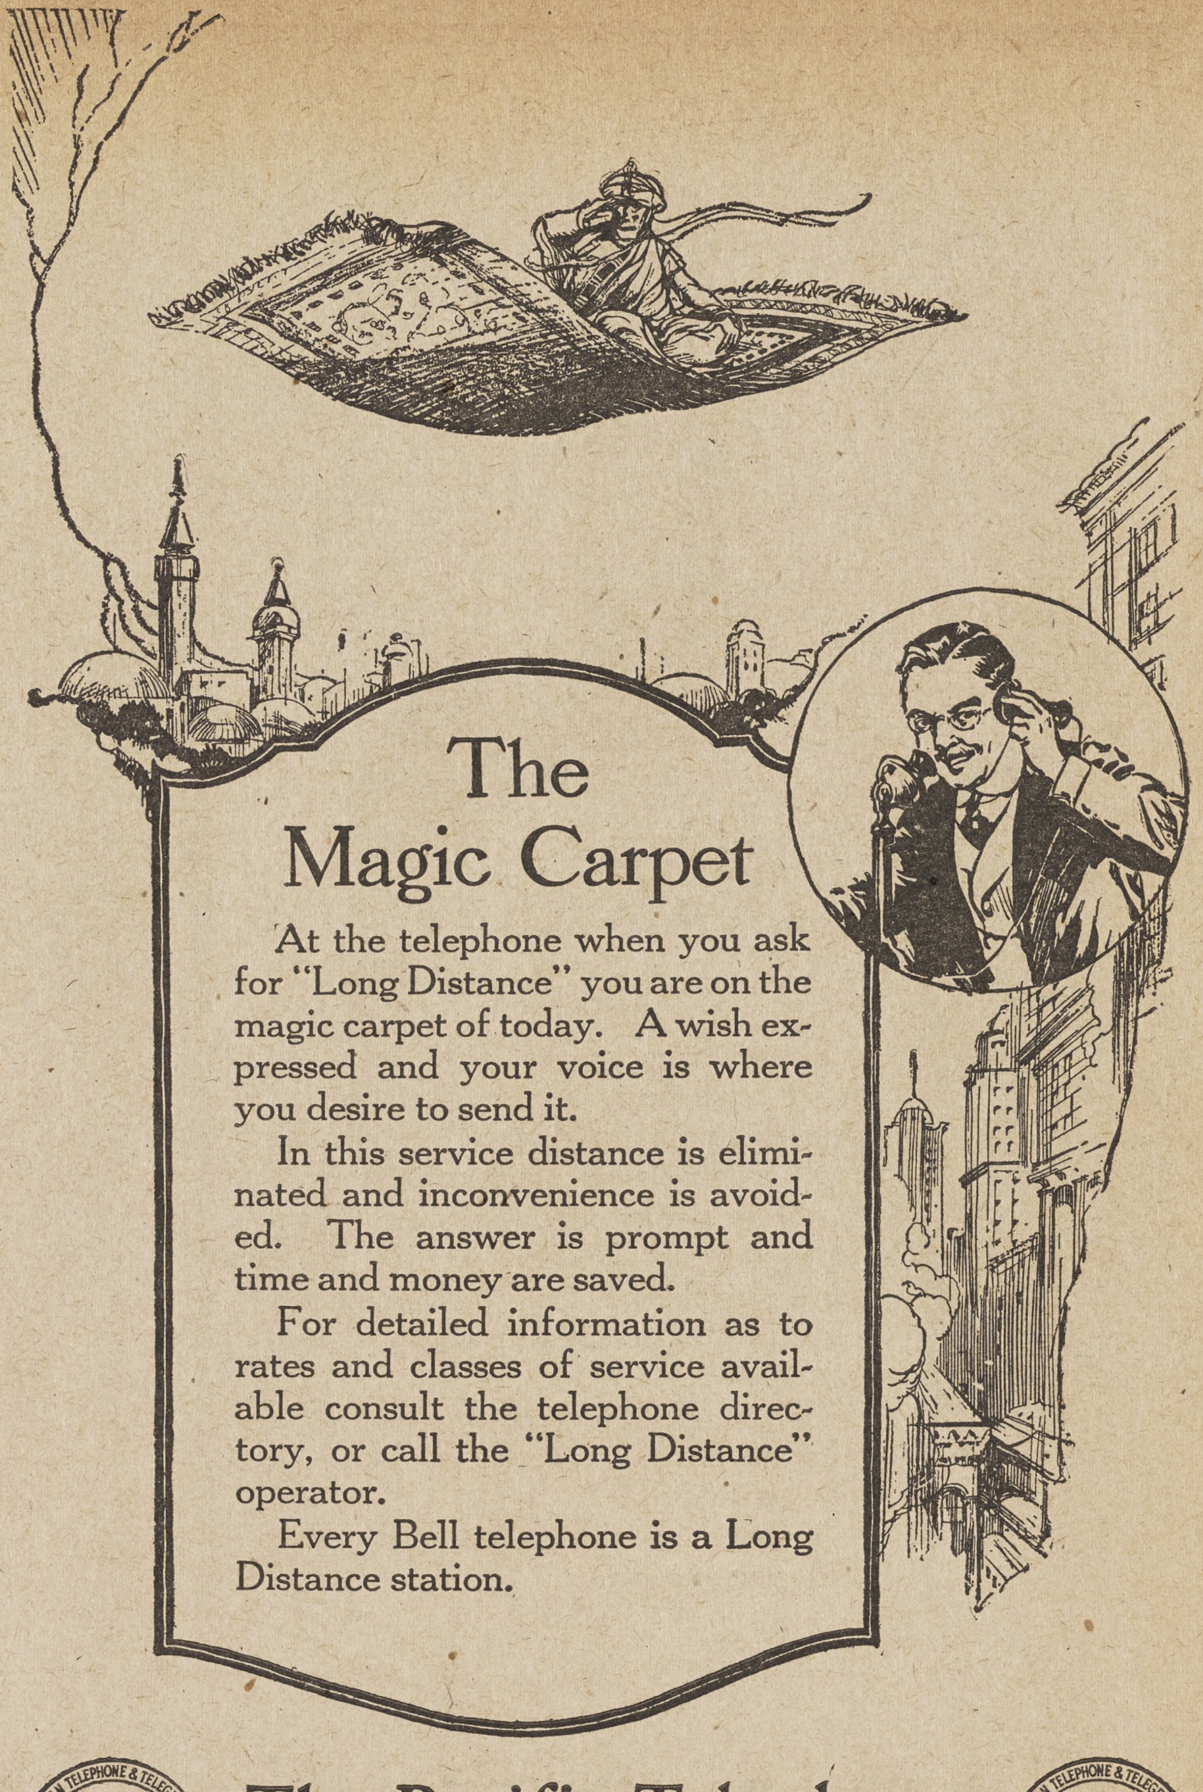
Forty-three years ago between San Francisco and San Jose the first long distance telephone line on the Pacific coast was constructed.

Today every city, town and hamlet has long distance service, and, more wonderful, long distance service with practically the whole United States.

The telephone directory gives full information as to rates and classes of service available.

Every Bell telephone is a Long Distance station.

The Pacific Telephone And Telegraph Company



The Magic Carpet

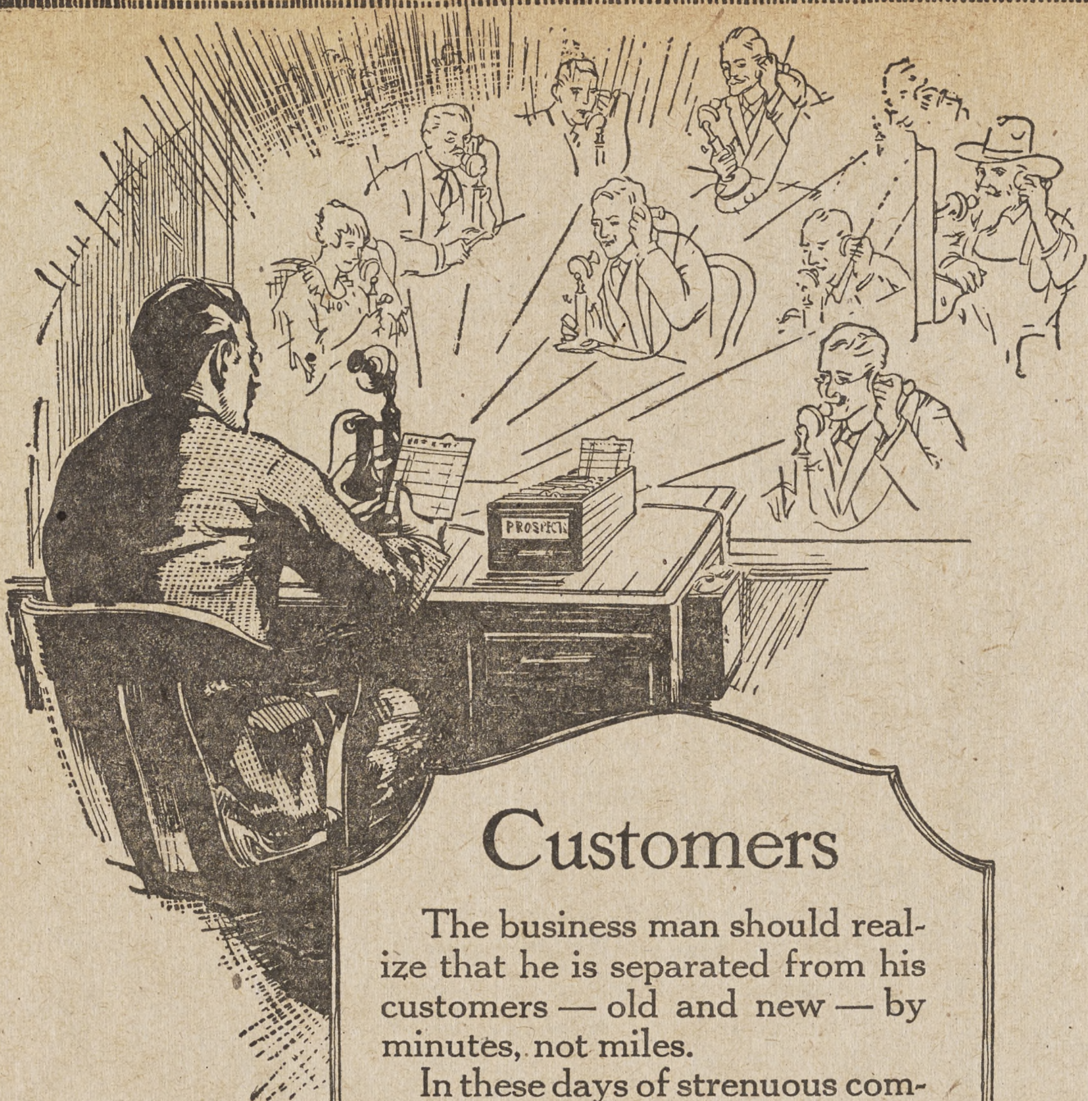
At the telephone when you ask for "Long Distance" you are on the magic carpet of today. A wish expressed and your voice is where you desire to send it.

In this service distance is eliminated and inconvenience is avoided. The answer is prompt and time and money are saved.

For detailed information as to rates and classes of service available consult the telephone directory, or call the "Long Distance" operator.

Every Bell telephone is a Long Distance station.

**The Pacific Telephone
And Telegraph Company**



Customers

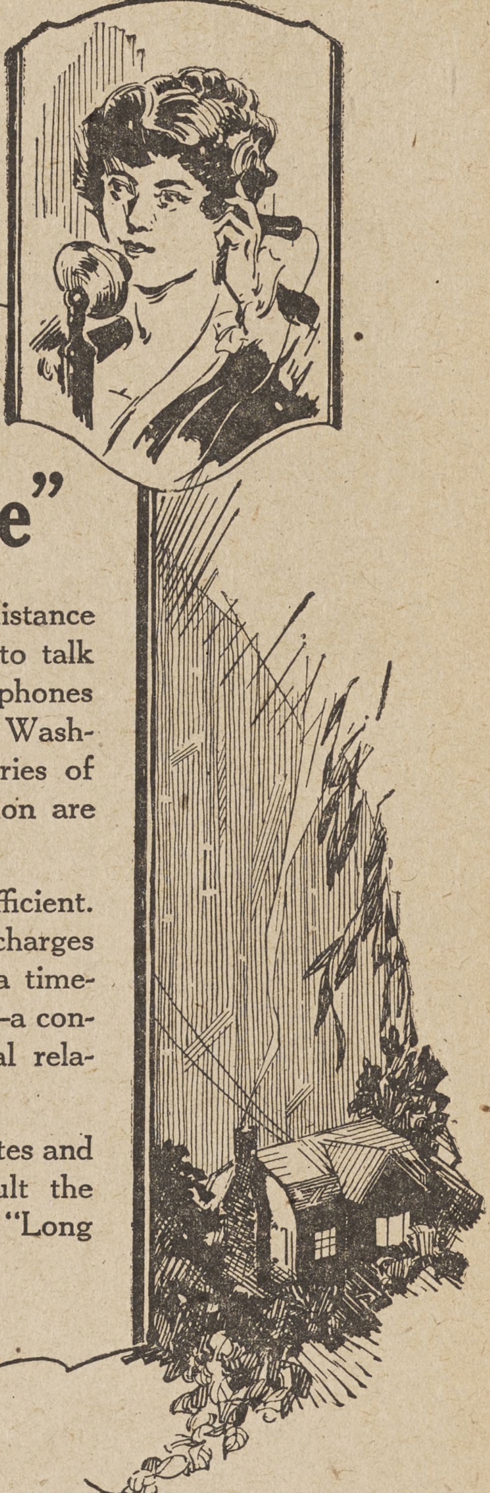
The business man should realize that he is separated from his customers — old and new — by minutes, not miles.

In these days of strenuous competition the successful merchant must make the best use of his resources, and there is none more important than his long distance telephone service.

In the transaction of business the use of the long distance telephone will mean the prompt answer, the personal touch and an economy of time.

Every Bell telephone is a Long Distance station.

**The Pacific Telephone
And Telegraph Company**



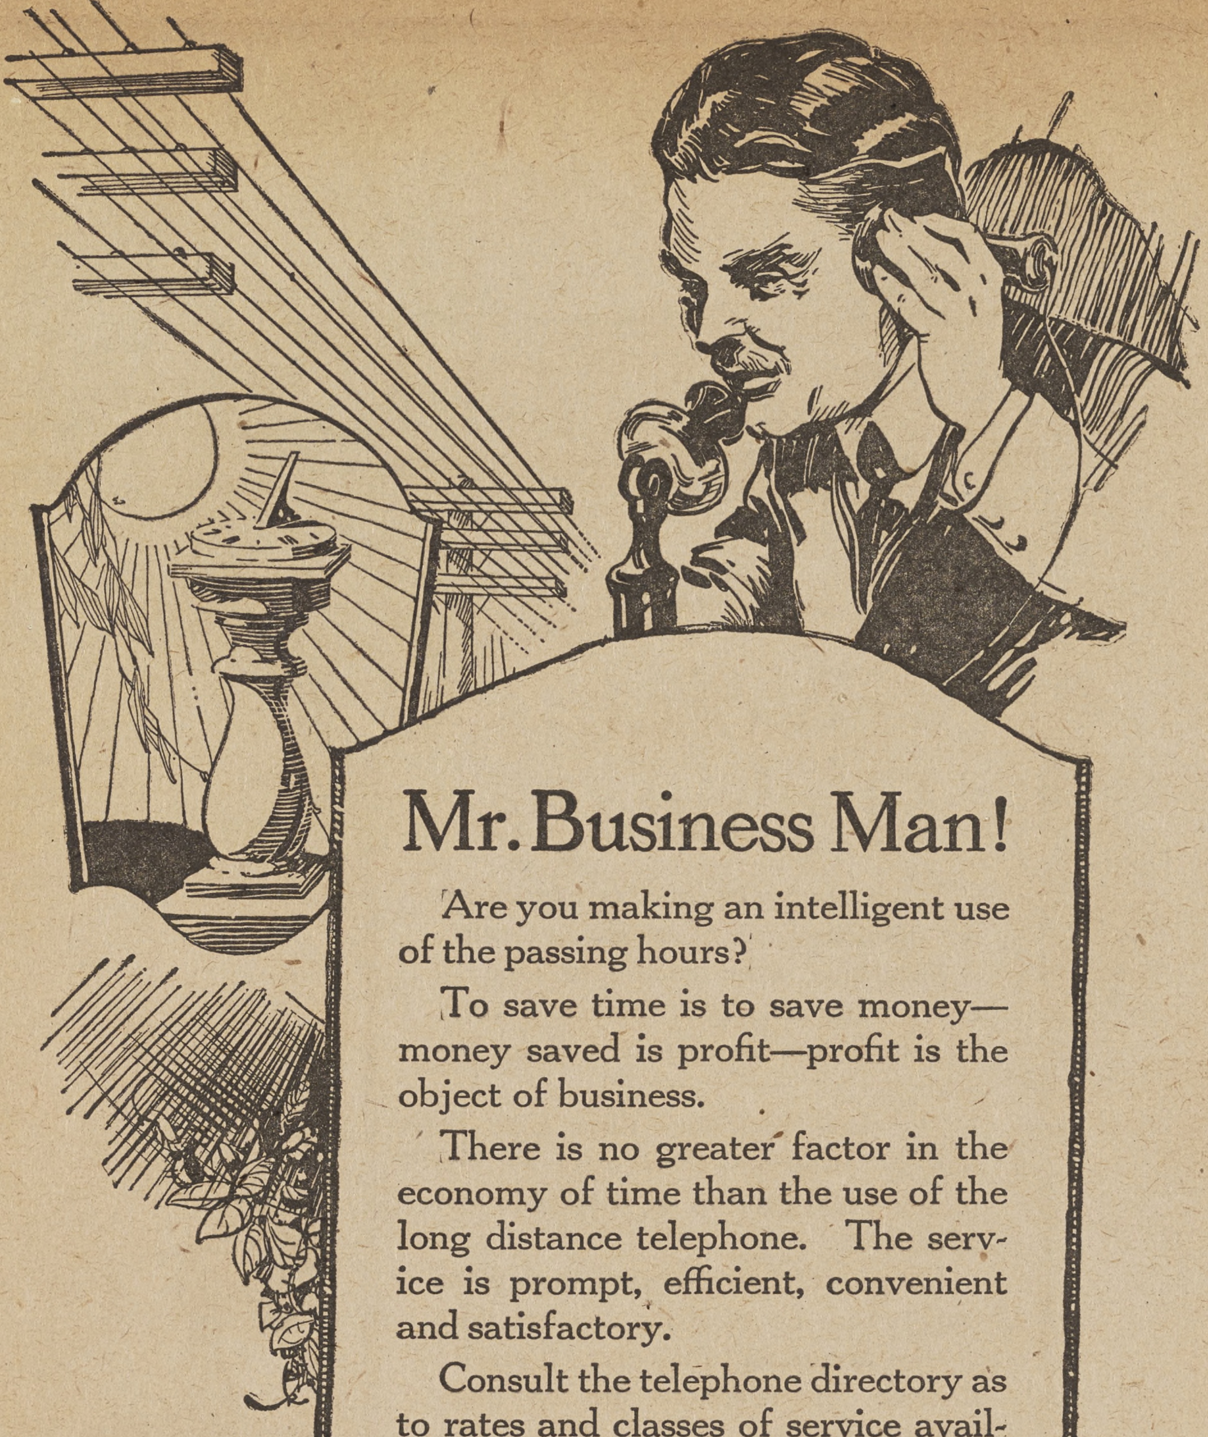
"Long Distance"

Every Bell telephone is a long distance station from which it is possible to talk with any one of over a million telephones in California, Nevada, Oregon and Washington. In fact, not the boundaries of these states but those of the nation are now the boundaries of the service.

The service is prompt and efficient. The operators are courteous. The charges are reasonable. It can be made a time- and money-saving aid in business—a convenience and satisfaction in social relations.

For detailed information as to rates and classes of service available consult the telephone directory, or call the "Long Distance" operator.

The Pacific Telephone
And Telegraph Company



Mr. Business Man!

Are you making an intelligent use of the passing hours?

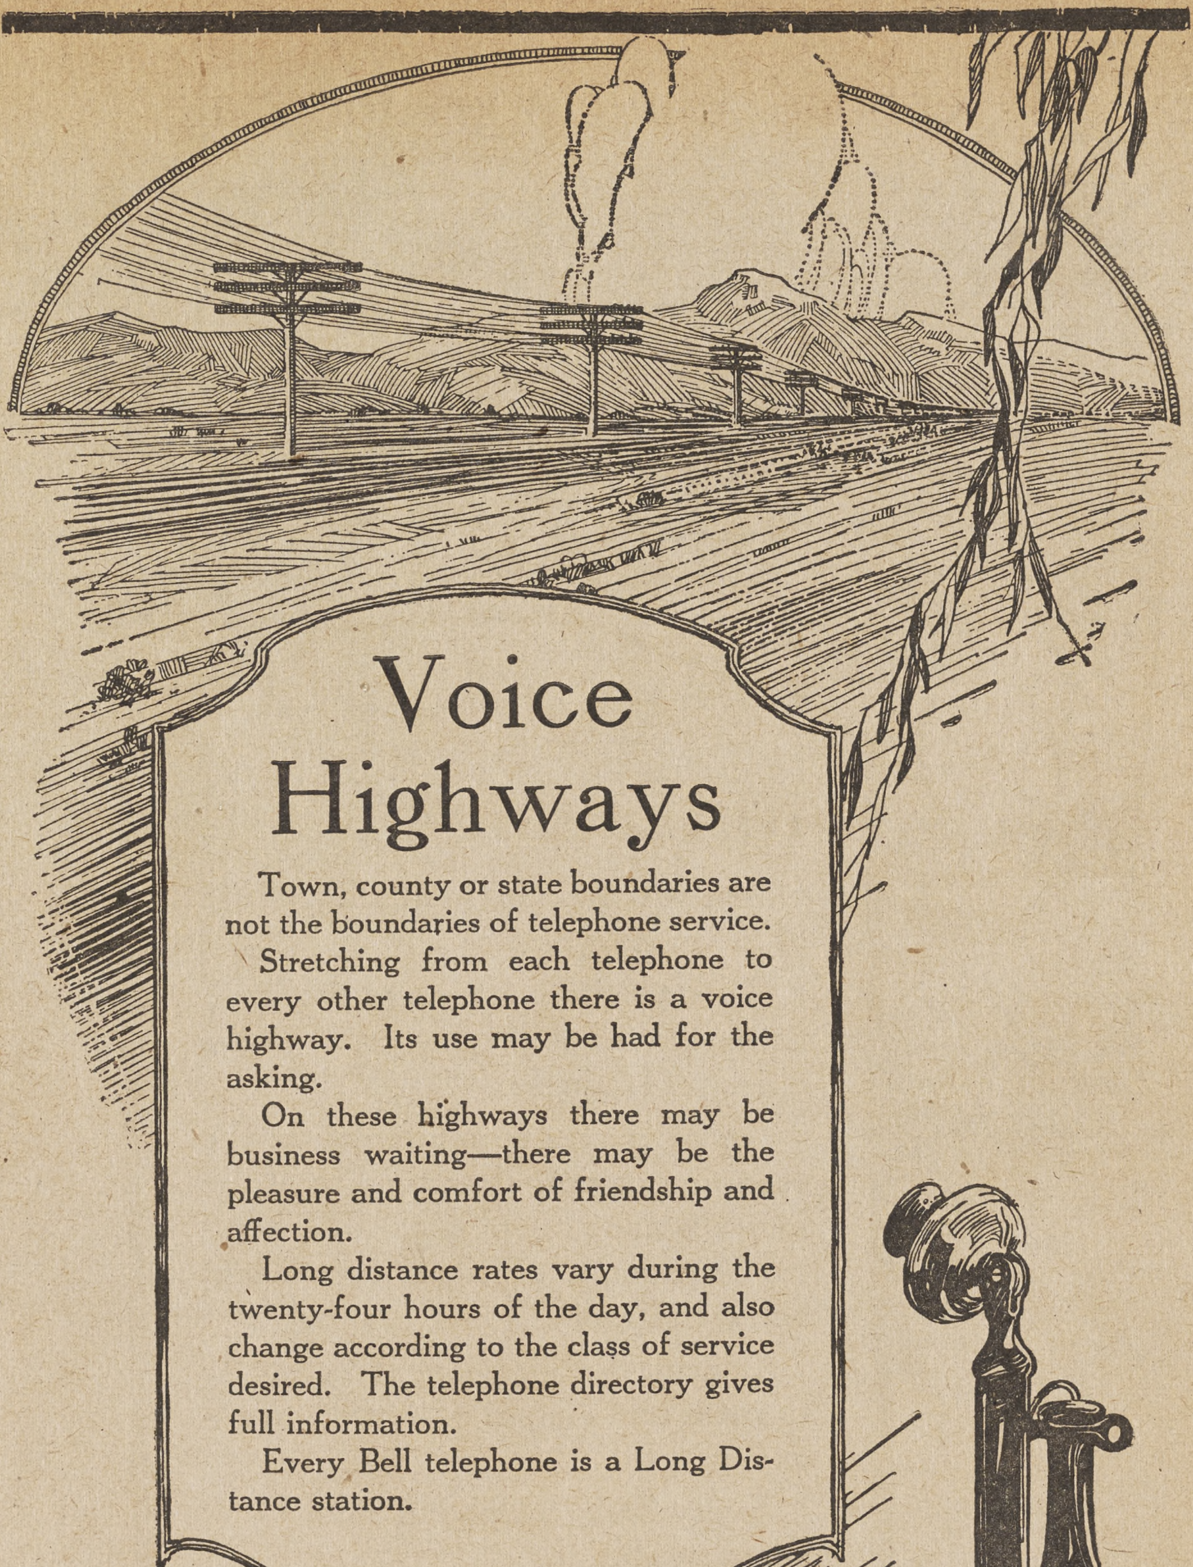
To save time is to save money—money saved is profit—profit is the object of business.

There is no greater factor in the economy of time than the use of the long distance telephone. The service is prompt, efficient, convenient and satisfactory.

Consult the telephone directory as to rates and classes of service available.

Every Bell telephone is a Long Distance station.

The Pacific Telephone And Telegraph Company



Voice Highways

Town, county or state boundaries are not the boundaries of telephone service.

Stretching from each telephone to every other telephone there is a voice highway. Its use may be had for the asking.

On these highways there may be business waiting—there may be the pleasure and comfort of friendship and affection.

Long distance rates vary during the twenty-four hours of the day, and also change according to the class of service desired. The telephone directory gives full information.

Every Bell telephone is a Long Distance station.

The Pacific Telephone And Telegraph Company

Telephone Directories for Sale

OWING to numerous requests from subscribers for Telephone Directories of other cities to be used as address lists, etc., we have arranged to keep in San Francisco a supply of the latest published Directories issued by this Company, which will be furnished, on request, as listed below. Directories issued by other Bell Telephone Companies may be obtained upon application at nominal cost.
